

SLHB LED HIGH BAY

Project:	
Type:	
Note:	

DESCRIPTION

The Starco SLHB is a rugged LED luminaire suitable for a variety of applications and a balanced mixture of high performance and value. Applications include manufacturing, warehouses, distribution and convention centers, gymnasiums and other large indoor spaces. SLHB is ideal to replace traditional linear fluorescent and HID fixtures in industrial and commercial buildings with uncompromised quality and reliability. Multiple lumen outputs and electrical and control options make SLHB practical, as well as versatile. SLHB offers a range of lumen packages from 12,000 to 60,000 lumens and delivers up to 185 lumens per watt for maximum rebate eligibility and years of free maintenance.

SPECIFICATION FEATURES

Construction & Materials

- Extruded aluminum heatsinks maximize LED lifetime and optimal performance
- Durable white-painted center driver channel
- Heavy-gauge 5VA flammability classified plastic end caps
- Light weight design allows for a less obtrusive installation
- Includes V-shape hangers for suspended mount; optional bracket for pendent and surface mount

Electrical System

- High efficiency driver
- Input Voltage: 120-277V, 347V/480V, 50/60Hz
- Operating Temperature: -30°C (-22°F) to 55°C (131°F)
- 0-10V Continuous dimming to 10%
- Non Flickering (Flicker rate <3%)
- Power Factor: >0.95
- Total Harmonic Distortion: <15%
- Surge Protection: 8kV
- Fast-Fuse Technology

Optical System

- High impact polycarbonate optics provides even distribution
- Optional frosted lens provides maximum glare reduction

Occupancy Sensor

- Selectable mode high/low/off passive infrared (PIR)
- Photocell
- Optional bluetooth remote control

LED

- CRI: 70+, 80+, 90+
- CCT: 3000K, 4000K, 5000K
- Calculated L₇₀ Lifetime: >295,000 hours @ 25°C
- Reported L₃₀ Lifetime: >86,000 hours @ 25°C

Warranty

- 10 Years

DIMENSION

ORDER INFORMATION

SLHB LED HIGH BAY

Example: SLHB-120-R1-D-50-D-M-H

SLHB	Wattage	Size	Optics	CCT	Dimming	Sensor	Mount	Options
SLHB=LED High Bay	50=50W 65=65W 70=70W 100=100W 120=120W 135=135W 150=150W 165=165W 180=180W 200=200W 220=220W 350=350W	R0=420x260 R1=420x420 R2=420x620 R3=530x910	F=Frosted D=Diffused	30=3000K 40=4000K 50=5000K	D=0-10V Dimming N=None dimming	M=Occ & Daylight Sensor (FSP211) S=Bluetooth remote controlled Sensor(FSP311) B=Bluetooth Mesh Sensor(IFS101) E=Bluetooth Mesh Sensor Emergency Mode *(IFS101E) O=No sensor	H= Suspended mount C=Surface mount P=Pendent	E= Emergency Coating

Accessories

SLHB5VKCS=3ft hanging chain
ACxx=Aircraft Cable/Hook xx-length in ft.
SLHBMb-x=Mounting Bracket x-diameter of hole in.
WPxx=16AWG Whip xx-length in ft.
Lx-15P=Twist Lock Plug, x=5or7 for 120 or 277
x-15P=Straight Plug, x=5or7 for 120 or 277
AT480=480V Autotransformer
EMDxx=Emergency Battery Pack xx-20 or 30 Watts
EMR=UL 924 emergency wired relay
MCable=Modular Plug&Go Cabling (further specification needed)
FSIR-100= FSPxxx Sensor remote controller
PPA109S=Wireless emergency controller (IFS101)
SPD-xx=Surge Protection Device xx-10 or 20kV

*IFS101E must be used with PPA109S. Can work with IFS101 sensors to override controls in emergency mode.
 *SLHBMb-x is the specialized version of the standard mounting bracket that is specified with the p designation in the mount section of the model number.

Aircraft Cable with hook

Sensor

THE SLHB LED High Bay integrated with the Legrand Wattstopper® photo/motion sensor provides more energy savings without sacrificing performance. Unlike traditional lighting control systems, the SLHB delivers superior lighting with integrated occupancy and daylight controls.

There are three basic sensor options - FSP-211, FSP-212 and FSP-311. The sensors operate from -40°C (-40°F) to 70°C (158°F) and have an IP66 rating and 5 year warranty. Please refer to Legrand Wattstopper® spec sheet for more information.

Starco Lighting also offers a wireless emergency solution using Keilton emergency load controller and wireless sensor. The PPA109S connects to normal power and emergency power. It sends a bluetooth signal to the emergency load controllers and emergency fixture sensors (IFS101, IFS101E) when normal power is lost.

1. Provision for remote test button or fire alarm interface
2. Dual color function LED indicator
3. Suitable for use in return air plenum Rated UL2043
4. Comply TO UL 1376, UL924, RoHS
5. Only 1 piece is requested per Zone

The IFS101 Sensor/Load Controller can be set to emergency mode (IFS101E) by default raising the light levels to 100%. It only allows sensor control and dimming when an active signal from the PPA109s is signaling that normal power restored. Standard operation of the IFS101 requires a wireless signal from the PPA109S that normal power is lost to go into emergency mode, bypass dimming and control functions.
