

# SLLA - LED ARCHITECTURAL LINEAR

## DESCRIPTION

The Starco SLLA LED Architectural Linear Light is a sleek and modern lighting solution designed for commercial and architectural applications. With its slim profile and customizable lengths, the SLLA offers uniform, high-quality illumination ideal for office spaces, retail environments, and public areas. Its energy-efficient LED technology provides both direct and indirect lighting options, ensuring optimal performance while reducing power consumption. The fixture is available in a variety of color temperatures and dimming capabilities, allowing for seamless integration into any lighting design. Durable and versatile, the SLLA enhances the aesthetics and functionality of any space.

## SPECIFICATION FEATURES

### Construction & Materials

- Extruded aluminum maximizes LED lifetime and optimal performance
- Light weight design allows for a less obtrusive installation
- Customized length up to 56ft

### Electrical System

- High efficiency driver
- Input Voltage: 120-277V, 120-347V optional, 50/60Hz
- Operating Temperature: -20°C (-4°F) to 40°C (104°F)
- 0-10V Continuous dimming
- Power Factor: >0.90
- Total Harmonic Distortion: <15%

### Optical System

- High impact polycarbonate optics provides even distribution
- Frosted lens provides maximum glare reduction

### LED

- CRI: 80/90
- Color Tunable 2700K to 5000K
- Calculated L<sub>70</sub> Lifetime: 306,000 hours @25°C
- Reported L<sub>30</sub> Lifetime: 89,000 hours @25°C

### Control

- Bluetooth motion & daylight sensor

### Warranty

- 10 Years

Project:	
Type:	
Note:	

DR Dynamic Range 3000K to 5000K

## DIMENSION

Size	2FT	3FT	4FT	8FT
L1	23.86"	35.43"	47.48"	94.72"
L2	24.96"	36.53"	48.58"	95.82"
H1	3.15"	3.15"	3.15"	3.15"

EMD(W)-20	20W	90	2600-3000	Self Diagnostic

## L-Connector Module

## T-Connector Module

## X-Connector Module

Composition

Example: SLLA-12-4-40-80-TD-HE-WH-U-27-D-DN

In this case, (1) SLLA-12-4-40-80-TD-HE-WH-U-27-D-DN is composed by (3) SLLA-4-4-40-80-TD-HE-WH-U-27-D-DN

Example: SLLA-12-8-40-80-TD-HE-WH-U-27-D-DN

In this case, (1) SLLA-12-8-40-80-TD-HE-WH-U-27-D-DN is composed by (1) SLLA-8-8-40-80-TD-HE-WH-U-27-D-DN and (1) SLLA-4-4-40-80-TD-HE-WH-U-27-D-DN

Example: Composition with L-Connector Modules.

To create configurations beyond standard linear runs, both linear fixtures and connector modules (e.g., L, T, X shapes) must be ordered separately. The following is an example configuration.

In this case, the fixture below can be composed by (2) SLLA-8-8-40-80-TD-HE-WH-U-27-D-DN, (2) SLLA-4-4-40-80-TD-HE-WH-U-27-D-DN and (4) SLLA-40-80-TD-HE-WH-U-L-D-DN

	3000K	95%		3000K	80%
	2700K	94%		2700K	79%

## Pendant Mount

TPK - T-Grid Pendant Mounting Kit

PMK - Pendant Mounting Kit

*\*For dry wall, hard ceiling and trunking system.*

*\*Fixtures come standard with a PMK pendant mounting kit.*

## Wall Mount

WMK - Wall Mounting Kit

## Surface Mount

SMK - Surface Mounting Kit

## Recessed Mount

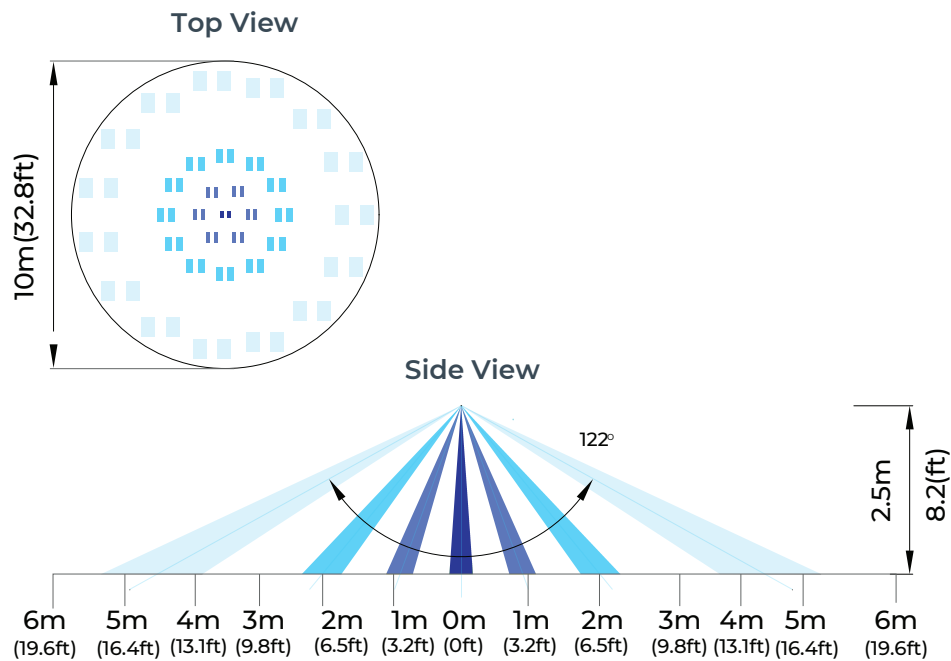

RMK - Recessed Mounting Kit

## CYF - Motion &amp; Daylight Sensor

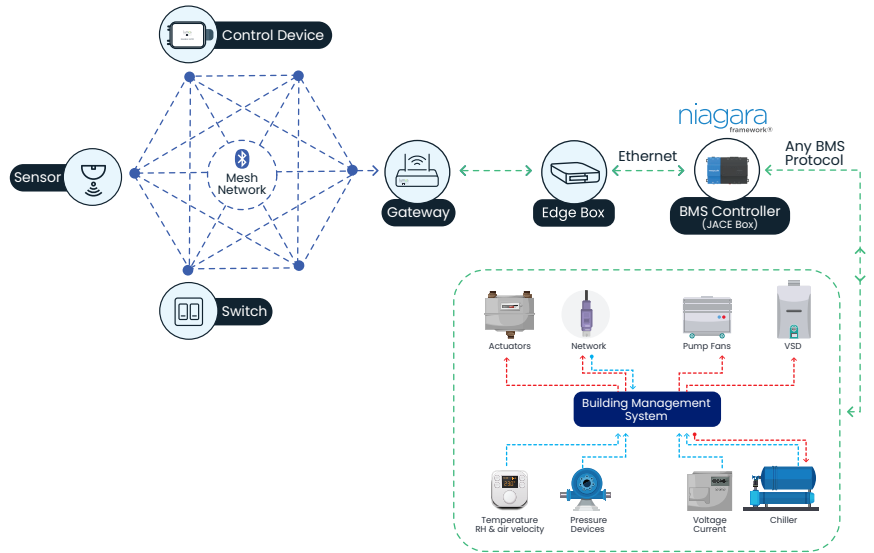

## Sensor Coverage

## BMS Intergration

- Starco Control ecosystem leverages the Niagara framework to intergrate with any of the 120+ BMS protocols.
- Very simple to connect as plugging the two systems into a common Ethernet network.
- All data can be shared and BMS can monitor and control the lighting system.
- Adding OpendADR gateway, the customer can take advantage of any current or future utility demand response programs including peak pricing, capacity bidding and direct laod control

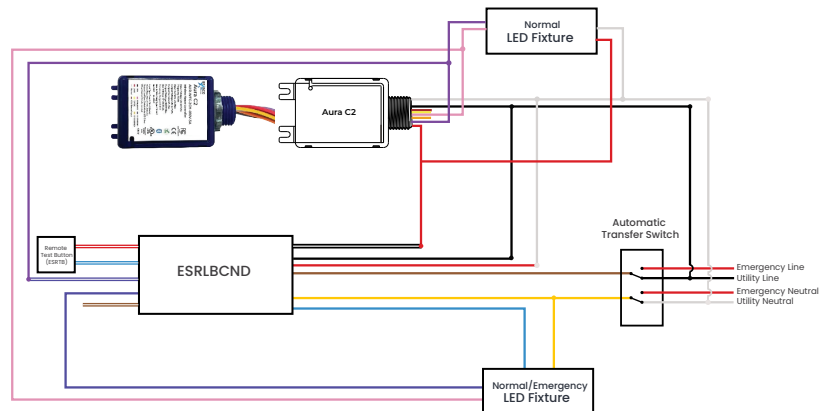

## Mobile App

- For commission, configuration and controlling lighting networks including device replacement feature that makes commission easier.
- Setting up schedules, scenes and animations for individual devices or groups or zones
- Always get the latest features and improvements using OTA updates for devices
- Safe and reliable communication with AES 128-bit encryption and ensure safety using 4-digit code

## Emergency Lighting Control

- UL924 Listed Aura C1/C2 provides transfer operation during a power outage.
- When there is power outage, the controller will receive power from the emergency source via the ATS. The AC/DC power supply will turn OFF due to power outage and the 0-10V input channel of the controller will not sense any voltage. When the controller detects this, it switches over to Emergency Mode where the fixtures will be lit at 100% intensity for 90 mins.
- The BLE wireless Emergency Inverter interfaces with a battery and LED driver to provide much more than just self-test functionality. It can provide emergency testing reports through the mobile app and also provide fault notifications as soon as one is detect

### Radiar AF10 - Wire description

Line (Black)	12VDC (Yellow)	0-10V DIM1+ (Purple)
Neutral (White)	DIM- (Pink)	0-3V Sensor input (Brown)
Load (Red)	0-10V DIM2+ (Orange)
